

XYLOL INTERNATIONAL FZ-LLC

# XYLOL INTERNATIONAL

*Where Chemistry Meets Excellence*

## ABOUT US

Xylol International FZ LLC is a specialized chemical company based in the UAE, serving the Oil & Gas industry across Upstream, Downstream, and Refinery sectors.

With over three decades of expertise in chemical formulation, manufacturing, application, and technical support, our promoters bring deep industry knowledge and reliability.

We offer a range of specialty production chemicals, including demulsifiers, corrosion inhibitors, and scavengers, custom-blended to meet client-specific KPIs and operational requirements.

Partnering with globally reputed suppliers, we ensure consistent product quality and performance.

Our operations are supported by an integrated management system and are certified to ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018, reflecting our commitment to quality, environmental responsibility, and occupational health and safety.

Our strategic warehousing facility in Dubai enables prompt supply and efficient service to meet our customers' timely requirements.

## INDUSTRIES WE SERVE

Oil & Gas | Water Treatment | Paints | Food & Beverage

### Mission

Deliver high-quality products and services that build a mutually beneficial environment for our clients and principals.

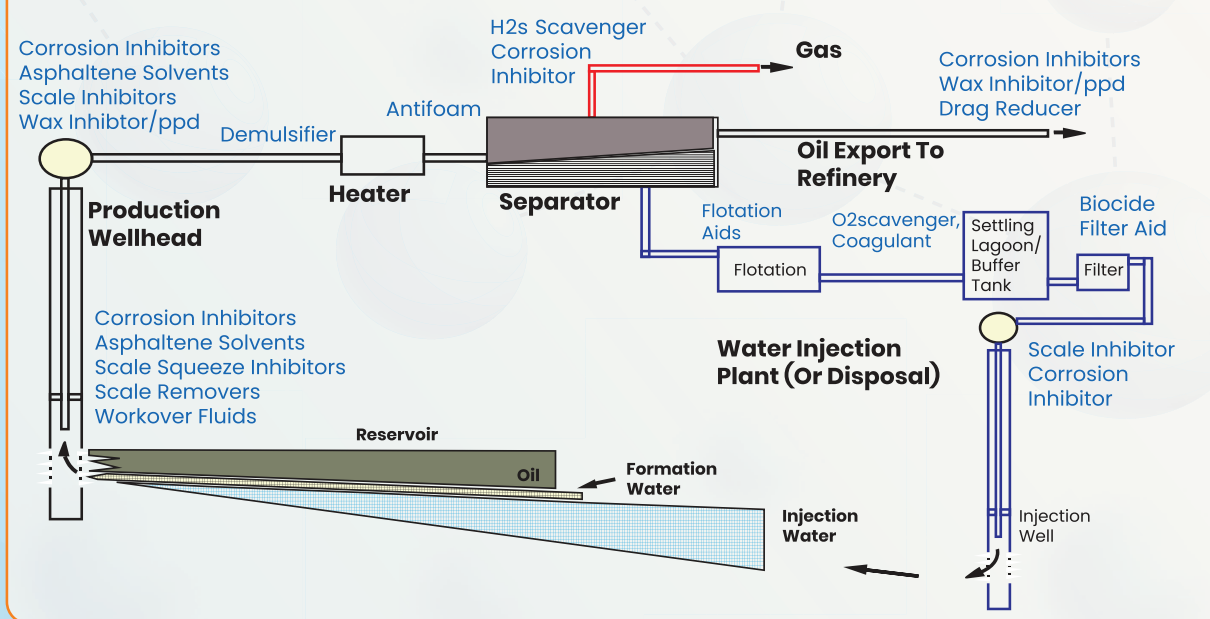

### Vision

To be a major global player in the distribution and manufacturing of advanced chemical solutions.

### Values

Safety.  
Respect.  
Quality.  
Integrity.  
Innovation.

## HYDROCARBON PRODUCTION PROCESS

- ◆ Highly optimized chemistry reducing the specific cost of chemical for each application.
- ◆ 360 degrees chemicals for Oil and Gas- Drilling, Production, Petrochemical and Downstream.
- ◆ Offer technology support with field deployment for right use.

## OIL & GAS DRILLING CHEMICALS

- **Water-Based Mud (WBM) Chemicals:**  
Bentonite, Barite, Hematite, Calcium Carbonate, Polymers, Starch
- **Oil-Based Mud (OBM) Chemicals:**  
Primary & Secondary Emulsifiers, Fluid Loss Additives, Lost Circulation Materials
- **Performance Additives:**  
Rheology Modifiers, Wetting Agents, Lubricants & Friction Modifiers
- **Corrosion & Oxygen Control:**  
Corrosion Inhibitors, Oxygen Scavengers, Biocides
- **Salts & Brines:**  
Calcium Chloride, Calcium Bromide, Zinc Bromide

## OIL & GAS PRODUCTION CHEMICALS

- **Flow Assurance Chemicals:**  
Demulsifiers, Antifoams, Wax Inhibitors / PPD, Asphaltene Solvents, Drag Reducers
- **Corrosion, Scale & Sour Gas Control:**  
Corrosion Inhibitors, Scale Inhibitors & Scale Squeeze Chemicals, H<sub>2</sub>S Scavengers, Oxygen Scavengers
- **Water & Injection Treatment:**  
Biocides, Coagulants & Flocculants, Produced Water Treatment Chemicals
- **Specialty & Commodity Chemicals:**  
Subsea Specialty Products, Generic & Specific Specialty Products
- **Glycols:**  
MEG, DEG, TEG & Butyl Glycol

## SOLVENTS

- Xylene | Toluene | IPA | Acetone

## WATER TREATMENT CHEMICALS & EQUIPMENT

- Boiler Antiscalant, Scale & Corrosion Control Chemicals
- Sludge Control & Carbon Removal Chemicals
- Flocculants & Coagulants (Cationic & Anionic)
- Test Kits (Alkalinity, Phosphite, Dissolved Oxygen) & Consumables
- Chemical Injection Pumps (20 bar / 2.9 LPH)

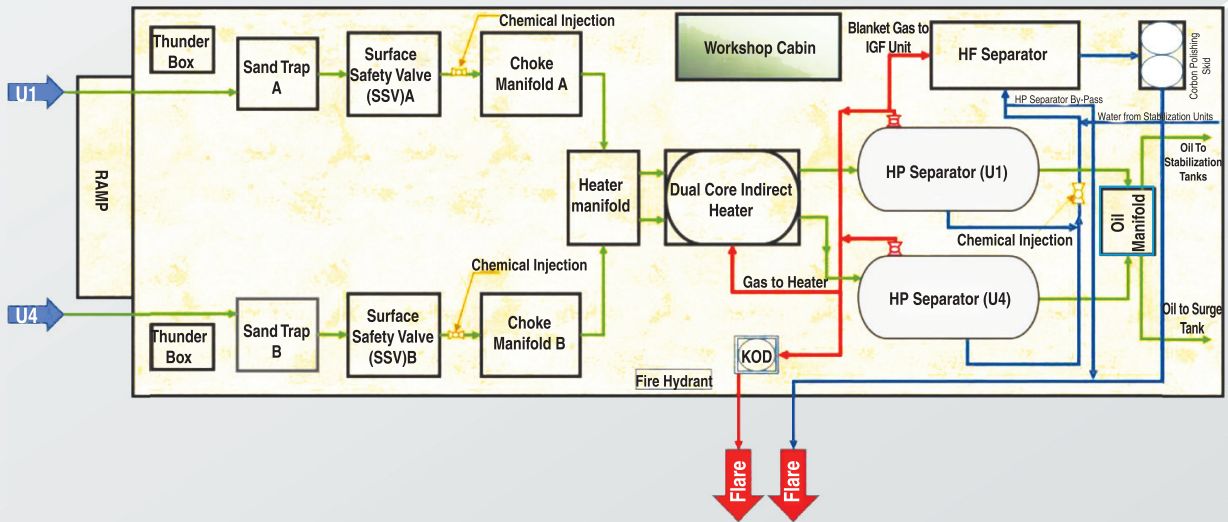

## FOOD & BEVERAGE CHEMICALS

- Beer Membrane Filtration Chemicals
- Conveyor Lubricants & Surface Cleaners
- Boiler Water Treatment Chemicals
- Fuel Treatment & De-scaling Chemicals

## CORE EXPORT PRODUCT PORTFOLIO

- |                        |                                    |
|------------------------|------------------------------------|
| • Primary Emulsifier   | • Biocides                         |
| • Secondary Emulsifier | • Oxygen Scavenger                 |
| • Wetting Agent        | • Asphaltex                        |
| • Rheology Modifier    | • Calcium Chloride Powder & Prills |
| • HEC Liquid           | • Potassium Chloride               |
| • PAC R                | • Calcium Bromide                  |
| • PAC LV               | • TEG & DEG                        |
| • Xanthan Gum          | • Butyl Glycol                     |
| • Drilling Starch      | • Xiameter PMX 200                 |

## Early Production Facility (EPF)

Xylol International offers Early Production Facility (EPF) solutions designed for fast-track oil production with high safety and operational reliability. Our EPF systems enable efficient three-phase separation, including produced water treatment to ensure oil particles in discharge water meet local regulations, along with crude stabilization, storage, and export pumping ensuring early cash flow for field developments. Facilities are modular, scalable and compliant with international oil & gas standards, supporting both onshore and offshore operations.
